Management report on the financial year

Principal activities and business review

The Zürich Branch is a non-life insurance branch of Beazley Insurance Designated Activity Company (Beazley Insurance DAC), which is headquartered in Ireland with a branch network in the United Kingdom, France, Germany, Switzerland and Spain. In October and November 2019, Beazley Insurance DAC received authorisation from FINMA and the Central Bank of Ireland to open a branch in Switzerland. In 2021, the branch continued to grow its activities by obtaining property and aviation licences. Gross written premium increased to CHF 5.3m (2020: CHF 2.0m). The branch underwrote its first non-life insurance policies in December 2019. The branch had no employees in 2021. There were no extraordinary events noted in 2021.

Future developments and prospects

The branch aims to grow its premium volumes in 2022, focusing on Specialty Lines, Cyber, Aviation and Property Treaty risks.

Risk Assessments

Due to the nature of its activities, the principal risks of the branch are aligned with those of Beazley Insurance DAC and the wider Beazley Group and include:

- Insurance risk
- Asset risk
- Operational risk
- Liquidity risk
- Credit risk
- Group risk
- Regulatory and legal risk
- Strategic risk
- Climate change risk

The branch is included in the Beazley Group's risk management framework, within which risk appetite is defined, risks assumed are identified and managed and key controls are implemented and monitored.

The Beazley group continues to monitor and respond to the global COVID-19 outbreak. We do not believe that the underwriting activities or assets of the branch have been impacted materially. The group also continues to monitor the potential impact of the ongoing conflict in Ukraine, both from an investment asset and claims liability perspective.
