## Beazley launches “Anything Lineslip” for hard to place US professional and management liability risks

London, 4 April 2017

Beazley, a pioneer in specialist insurance, has launched the new Anything Lineslip in London offering terms for all US management, professional, cyber and healthcare liability risks, no matter how challenging.

The Anything Lineslip is led by Beazley, supported by a number of other carriers including Antares and ARK 4020 (Specialty Programs), and will seek to quote any US risk in the above classes that can be legally underwritten, provided that no other London insurer offers terms.

Beazley has a long history of developing innovative products to cover new and emerging risks. These include the industry-leading **Beazley Breach Response** product which has helped define the market for cyber insurance; in 2016, Beazley launched **Cancellation Plus** to insure events suffering diminished sales due to adverse weather; and **Beazley Flight**, a comprehensive response and evacuation service for organisations to take their people out of harm's way.

Adrian Cox, Beazley's head of specialty lines said, "Beazley has a strong track record in innovation and is at the forefront of promoting London as the world's leading market for specialist insurance. The Anything Lineslip will give brokers placing these US liability risks in London the confidence that we can help even when others have said no."
