- Annual Freight Liability minimum premium **GBP 350.00** plus IPT
- Written on the latest wording

How do I obtain a Freight Liability quote from Beazley on Acturis?

- **Add a new RFQ:**
The Beazley Freight Liability product has been built using the open market "Freight Liability" question set. You can find this on Acturis by going to the "Add RFQ" screen on any client and selecting:

• Category: Liability	Policy Type
• Policy Type: Liability Combined	Category <input type="text" value="Liability"/>
• Product Target: Goods Handling Liability	Policy Type <input type="text" value="Liability Combined"/>
	Product Target <input type="text" value="Goods Handling Liability"/>
	Description <input type="text" value="Product target for hauliers, warehousemen, stevedores, freight"/>

If your brokerage uses "Preferred Product Targets" the "Freight Liability" product might already appear on your preferred list for easy selection.

Selecting the right insurer:

Fill in the **“Main Details”** screen as you would for any other class and click **“Apply”** to add the RFQ. When that’s done, go to the **“Insurers”** screen and check that the Beazley Goods Handling Liability product is available and selected.

	Rating Method	Insurer	Submitted
<input checked="" type="checkbox"/>	E-Trade	Beazley Underwriting Services Ltd	

Next, go to the **“Risk Details”** screen and fill out the questions to give detail of the cover required. When you’ve answered all the mandatory questions for the cover you’ve selected the **“Submit”** button will become available.

Viewing quote details and documents:

When you click **“Submit”** the system will automatically generate a premium and terms for your risk. A summary of these will be visible on the **“Quote Details”** screen. For full information click **“Jump to quote”**. The quote documents will appear in the **“Electronic File”** a few seconds later.

Binding cover:

If you’re happy with the quote and wish to bind cover simply click **“Accept”** on the **“Main Details”** screen. Once you’ve answered the standard accounting questions, the system will automatically issue a policy number and generate policy documents. These will be available in the **“Electronic File”** a few seconds after you accept the quote.

Beazley will be notified automatically that the risk has been bound and will invoice the premium as part of your monthly account in the normal way.

What if I have questions about how to use Acturis?

Acturis helpdesk are standing by to take your calls on 0844 879 3316. Please refer all “How do I” type questions to them. If you prefer to use email their email address is support@acturis.com.

What if I want to discuss my risk with an underwriter?

Please call a member of the Beazley marine team. We'll be happy to help.

My quote went to "Refer continue". What do I do?

Acturis will have emailed details to the underwriter automatically so they will contact you with further details, instructions or approval code. If they are happy with the risk, they will give you a code to override the referral so you can quote and/or bind the risk and issue policy documents.

I made a mistake. Do I have to cancel the policy and reissue to correct it?

No. Simply process a MTA as you would for any other e-trade product. This will allow you to correct the error. The system will automatically calculate any adjustment premium necessary and issue updated documents.

How will I be invoiced for the policy premium?

Beazley does not use debit notes. All bound business will be invoiced as part of your regular monthly billing cycle. Please collect payment from your client in the usual way.

The descriptions contained in this communication are for broker preliminary informational purposes only. Coverages are underwritten by Beazley syndicates at Lloyd's and will vary depending on individual country law requirements and may be unavailable in some countries. The exact coverage afforded by the products described in this brochure is subject to and governed by the terms and conditions of each policy issued.
