## Architects, Engineers & Contractors Professional Liability

The Construction industry is like no other. Its insurance needs are distinct and unusual. That is why Beazley has a London market team of underwriters that specialise in the professional liability needs of architects, engineers, contractors and design build firms of construction projects.

With over 30 years of experience in the architects, engineers and construction space Beazley has gained a wealth of knowledge and expertise. With a reputation for exceptional service and an extensive database of information to track claims trends.

At the heart of our approach is the in depth knowledge that our integrated underwriting and claims team has of the construction sector. This combined with the level of empowerment and flexibility allows them to provide bespoke solutions to clients.

Working alongside our colleagues based in the US the Beazley London team has a distinct but complementary appetite for the following types of risks.

### Target markets

- **Contractors** – general contractors, trade contractors and specialist contractors.
- **Architects & engineers** – including specialist classes such as: oil and gas, telecoms, nuclear, aviation & aerospace.
- **Design build** – for traditional D/B construction firms as well as customised & engineered products i.e. equipment/machinery.
- **Excess layers** – A&E, design build and construction firms. Both practice and annual project specific policies available.
- **Coverholders/Programs** – appetite for creating new A&E programs or new contractors E&O programs and delegating authority to coverholders where there is a proven track record, new product or superior distribution.
- **Firm size** – we write firms of all sizes ranging from sole proprietorships to large firms.
- **Association business** – we will look at bespoke wordings and rates for members.
