- “All causes business interruption cover” plus stated value Weather Guard cover during the key hours of the event
- Additional coverage add-ons available
- Limits up to \$20,000,000 per event
- 25+ years of underwriting experience.

## Weather Guard

An innovative policy to protect businesses from weather related revenue shortfalls. The product is powered by Beazley's access to a comprehensive weather database that sources information from over 5,500 weather stations worldwide, providing information going back over 40 years. For example, a garden centre can cover a reduction in revenue if it is a particularly wet summer, or an indoor play centre can insure a drop in income in the event of an unusually warm summer.

## Weather Guard perils included and available

- Standard coverage provides rainfall during the key hours of your event protecting 20% of your gross revenue
- Rainfall threshold and hours of coverage vary by event, location and budget
- Limit can be adjusted if requested, to represent more or less of the gross revenue based on event profile
- Stated value cover, does not require the event to be cancelled or abandoned, simply if the insured threshold of rainfall occurs during the hours of coverage the policy pays the Weather Guard sublimit.
