

Equipment Breakdown Quick Reference Guide

Equipment Breakdown (EB) coverage insures against mechanical breakdown, electrical breakdown and pressure/vacuum failure which is typically excluded from a standard Property policy.

Why Equipment Breakdown?

EB provides your insured with additional protection for losses that are typically excluded under the Property policy at an affordable price. EB coverage also provides Jurisdictional Inspections as required by state or city law.

We have the expertise to understand the true scope of your exposures. And we provide innovative packages and features to help protect you today and tomorrow.
