

Beazley Home Insurance

Beazley Home Insurance

Working in partnership with high calibre insurance brokers we seek to deliver an exceptional underwriting and claims service.

Beazley home insurance is a high quality and accessible insurance product targeted at the UK mid to high net worth customer segment. Supported by Beazley Trade, our web-based underwriting platform, and backed by empowered underwriters, we pride ourselves in offering a proven underwriting solution that meets the needs of our brokers and their clients alike.

Coverage available

Beazley home insurance is designed for individuals with higher value homes and possessions.

It is suitable for properties with a rebuild value of £250,000 or greater and/or general contents, valuables and fine art with a new for old replacement value in excess of £75,000.

We offer a comprehensive 'all risks' home insurance product that provides protection against a wide range of events. Cover is granted for accidental loss or damage to possessions on a worldwide basis.

As well as insuring buildings, contents and personal possessions we specialise in covering fine art collections, jewellery and antiques.

Claims

Our underwriting team are supported by an excellent claims service.

At Beazley, we ensure that our underwriting and claims professionals work side by side. For our clients this helps to ensure that when a claim arises the intent behind the original policy is respected.

We work with our brokers in order to meet their specific requirements in offering a number of claims handling solutions.

We are able to grant in-house authority to our brokers (dependent upon experience and operational capability). Alternatively we are able to offer a dedicated Beazley branded desktop claims handling and adjusting service.

Coverholders

Our business is underpinned by strong broker relationships which have seen us working with some of our business partners for over two decades.

Operating on a delegated authority basis as Lloyd's coverholders allows our brokers to provide a quick and responsive service to their clients. This is further enhanced by the ease of administration offered by the Beazley Trade web based underwriting platform.

We empower our coverholders but importantly we recognise that not all risks are the same and our experienced underwriting team are on hand to respond quickly to enquiries whilst offering a flexible and personal approach.

Beazley Trade

Beazley Trade is engineered to help our coverholders offer a fast and efficient service by providing a unique online trading platform in support of the delegated underwriting process.

Authorised users are able to administer the policy through its lifecycle from quote to bind with full mid-term adjustment and renewal functionality. The pricing, underwriting rules, endorsements and referral process are all built into the platform. Policy documentation in the form of quotations, schedules and statement of facts are all generated by the platform and there is also access to a full reporting suite.

Additionally, coverholders each have their own version of the site that can be tailored to their needs in order to fit their specific distribution model.

About Beazley

As one of the largest insurers within the Lloyd's market we offer a wealth of underwriting experience. Beazley manages six Lloyd's syndicates. All Lloyd's syndicates are rated A (Excellent) by A.M. Best and also benefit from the Lloyd's chain of security.

We are market leaders in many of our chosen lines, which include professional indemnity, property, marine, reinsurance, accident and life, and political risks and contingency business.

Beazley plc is incorporated in the UK and listed on the London Stock Exchange (LSE Symbol: BEZ.L).
