Many insurers come and go in the market for lawyers' professional liability. If you glance at your own insurance history you may even find some of the 20 or more carriers that have left the market in the last 15 years.

Beazley has underwritten lawyers' professional liability insurance for 25 years. Our clients include firms specializing in plaintiff class action, intellectual property, entertainment, family law and collections work. These firms run from small local law firms to nationally known practices, that are amongst the most successful law firms in the US. Our capacity on 100% limits is from US \$500,000 to US \$5 million and up to US \$15 million on a subscription basis.

Why Beazley?

Beazley offers some distinct benefits:

- Broad policy language
- Continuity cover for renewing clients
- Cover for predecessor firms
- Cover for ex-lawyers and partners for the work on behalf of the firm
- Cover for contract lawyers

We also offer a range of options for clients who want extra peace of mind, for example your policy can be enhanced to provide you with a defense against any claim arising from your legal work, regardless of exclusions that would otherwise apply.

The descriptions contained in this broker communication are for preliminary informational purposes only and coverages are available in the US only on a surplus lines basis through licensed surplus lines brokers doing business with Beazley's Lloyd's of London syndicates. The exact coverage afforded by the product described herein is subject to and governed by the terms and conditions of each policy issued. The publication and delivery of the information contained herein is not intended as a solicitation for the purchase of insurance on any US risk.

Long-term partner. For some insurers making promises of more coverage or lower prices without underwriting discipline is easy. Still being there to keep your promises two, ten or more years later is much harder. At Beazley we're committed to being there for our clients through rain or shine, as our clients who've been with us over many market cycles will attest.

Tailored risk management. While we are there for our clients if a problem arises, prevention is always better than cure. We have worked with clients to reduce the likelihood of a claim, thereby reducing reputational risk and saving long-term on premium spend. We have worked with many of the top sources of independent risk management expertise, including Berman and Associates who have performed risk management reviews for nearly 1500 law firms across the US. Our resources include a risk management hotline, the *Beazley Brief* newsletter, claims trends data, and access to a range of high caliber risk management and loss prevention experts.

Focus on claims service. Expectations are naturally high because our law firm clients understand liability issues. We have the claims expertise to be highly responsive and satisfy our clients' expectations.
