myBeazley

By applying Beazley's market-leading expertise in cyber insurance, we have created an e-trading broker platform for small and medium-sized businesses. It has been created with brokers for brokers, and allows you to quote, download an application and request a bind for cyber insurance for your clients at the touch of a button.

Benefits include:

Quick and simple quote capability

We understand that your clients have busy lives and a quick quote is beneficial to everyone, which is why the system has been designed to give an indicative quote in less than two minutes. We have focused on a minimal number of questions by removing any data collection that doesn't affect the purchasing process.

Offer multiple quote options

In addition to providing your clients with on the spot quotes, myBeazley also gives you the option to offer quote options for a number of different scenarios and limits up to \$5m.

Automated risk reservation

Receive a reservation decision while creating your quote.

Access to expert underwriters

If you do need to speak to an underwriter – because you have an unusual risk that requires manual review or require a specific endorsement – our expert team of underwriters is on hand and empowered to make quick decisions.

Ready to bind?

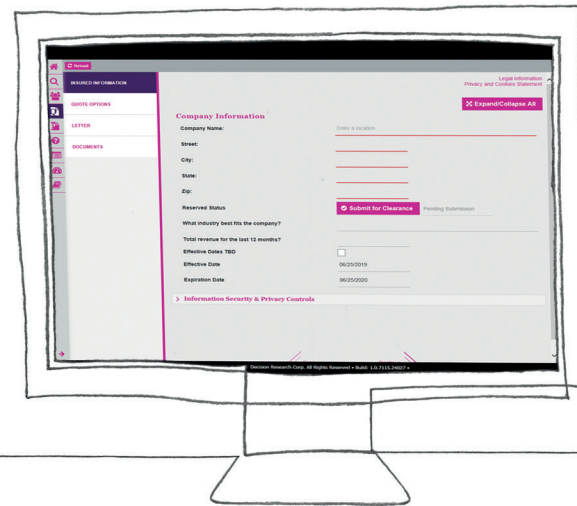

In just two clicks you can send a bind request from the system with your quote letter and signed application.

Account access

Once quoted, brokers can access accounts, update information and bind policies with just a few clicks.

Admitted capabilities

Admitted quotes provided in most states.

The descriptions contained in this communication are for preliminary informational purposes only. The product is available on an admitted basis in some but not all US jurisdictions through Beazley Insurance Company, Inc., and is available on a surplus lines basis through licensed surplus lines brokers underwritten by Beazley syndicates at Lloyd's.
