

Beazley Insurance dac

Beazley's Dublin based European insurance company providing specialist insurance cover from local offices across Europe.

Beazley Insurance dac

Beazley Insurance dac is different to most of the insurance companies that you will come across in Europe. Our expertise and underwriting appetite lies in specialist risks; combined with a deep understanding of the insurance needs of specific sectors and clients.

Local underwriting and claims teams who are empowered to make decisions

At the heart of our approach is the experience and knowledge our growing team of local underwriters and claims managers have in their respective specialism. This combined with the level of empowerment allows them to respond to the needs of our broker partners, and their clients, whilst reducing the need for referrals.

Expanding range of specialist products

We carefully assess the market to identify areas where our approach to specialist insurance will be most beneficial to brokers and their clients. This has resulted in an expanding local product offering that includes:

- Commercial crime
- Cyber
- Director & officers liability
- Employment practices liability
- Financial institutions
- Healthcare
- Investment managers
- Professional indemnity
- Public offering of securities
- Small business solutions
- Venture capital funds.
