Beazley proud to sponsor the 2022 Inclusion in Tech Festival

February 11, 2022

This festival will present findings from the latest Diversity in Tech Report with panels of Signatory employers, experts and ministers sharing the practical 'how to' of DE&I interventions that actually work.

The 2022 Inclusion in Tech Festival takes place virtually on 1st and 2nd March and is proudly sponsored by Beazley. We will present findings from the latest Diversity in Tech Report with panels of Signatory employers, experts and ministers sharing the practical 'how to' of DE&I interventions that actually work.

This is a 2-day flexible and virtual festival with 4 separate sessions designed to work around work, life, and caring commitments. Our festival is free and open to all - please share this invitation with employees, colleagues, and clients.

Why join?

During this 2-day festival, we will bring to the forefront the Signatories that are leading change and, most importantly, what actions are having the greatest impact.

To register, click here.
