How to determine which version of my Beazley access

As we transition to an enhanced Beazley platform, you may need to access both the new system and the legacy version depending on when the risk was originally placed. We are building a dynamic landing page that will host all URL links and will quickly reroute you to the right place. However in the meantime we suggest you bookmark the below links in your internet browser for easy access.

We have different Policy prefixes & URLs to help you identify the correct version of the insurance product and which system to use:

- New Treatment and Professional Liability policies created in Future myBeazley 3.0 will begin with a "**B"** in the Policy reference.
    - https://int.mybeazley.com/quote
- Legacy Medical Malpractice policies created myBeazley version 1.5 will begin with a "**RBQ"** in the Quote Reference & "**W**" for Bound Policy reference.
    - https://uk.login.mybeazley.com/
- To note – for a period of time there will also be some Legacy Beauty & Wellbeing policies on myBeazley version 1.0, these will begin with "**BUK**". You will access these via the same URL as myBeazley version 1.5.
    - https://uk.login.mybeazley.com/
